PERSONAL INFORMATION

Full Name: Hanfan Husain F
Nationality: Indian
Languages: English (Proficient), Tamil (Native)
Visa Status: Visit Visa
Notice Period: Available Immediately

PROFESSIONAL SUMMARY

2 years of experience as a Software Developer specializing in the design and development of scalable, high-performance web applications. Skilled in modern front-end technologies and responsive user interface development, along with strong backend expertise in Java, Spring Boot, and RESTful API development. Experienced in collaborating with development, testing, and business teams to deliver efficient, secure, and maintainable software solutions. Focused on developing reliable applications that align with business requirements and user needs.

WORK EXPERIENCE

Software Developer

Mcamdois IT Solution

August 2024 – March 2026

Chennai, Tamil Nadu

- Developed and maintained RESTful APIs using Java Spring Boot in an MVC-based application environment, supporting seamless communication between frontend and backend systems.
- Implemented backend business logic and integrated Oracle SQL procedures with Java code for CRUD operations, data processing, and application functionality requirements.
- Worked with Spring Data JPA and Spring Security for database interaction, query handling, authentication features, and secure access management within the application.
- Developed and enhanced frontend application features to deliver responsive, interactive, and user-centric web interfaces aligned with business requirements.
- Performed debugging, testing, and issue resolution by identifying application errors, fixing functional issues, and supporting stable system performance.
- Collaborated with developers, QA teams, and business teams during development and testing phases to ensure smooth functionality and timely issue resolution.
- Participated in development activities including daily stand-ups, sprint discussions, task updates, and coordination with team members throughout the project lifecycle.
- Prepared and maintained technical documentation related to application modules, development tasks, issue tracking, and implemented functionalities.

EDUCATION

B.Tech – Information Technology

Aalim Muhammed Salegh College of Engineering (Anna University)

CGPA: 8.91 / 10

August 2020 – June 2024

Chennai, Tamil Nadu

Higher Secondary Education (HSE)

Mohamed Sathak Dastagir Matric Hr. Sec. School

CGPA: 8.0 / 10

June 2018 – March 2020

Ramanathapuram, Tamil Nadu

TECHNICAL SKILLS

Programming Languages:	Java, JavaScript, SQL
Frameworks & Libraries:	Spring Boot, Spring Data JPA, Spring Security, React JS, Bootstrap, JQuery, Node JS
Web Technologies:	HTML5, CSS3, RESTful APIs, AJAX
Databases:	Oracle SQL, MySQL Workbench, Microsoft SQL Server, MongoDB
DevOps & Tools:	Git, SVN, Docker, Vercel , GitHub
IDEs & Platforms:	Spring Tool Suite (STS), Eclipse, VS Code, Apache NetBeans, Figma
AI Tools:	Claude, Cursor, ChatGPT, Google AI Studio, CodeX

PROJECTS

OMNET – Offender Management System (Web Application)

- Worked on the development and maintenance of a secure web-based system using Java Spring Boot, Oracle, and MS SQL, supporting core application functionality, data management, and transaction processing requirements.
- Contributed to the design and implementation of responsive user interface features, ensuring smooth integration with backend services through RESTful APIs and improving overall application usability and workflow accessibility.
- Worked on modules including offender profile management, grievance tracking, audit logging, and automated report generation, supporting administrative operations, data tracking, and workflow management within the system.

Noor AI Assistant (CRM & WhatsApp Automation System)

- Contributed to the development of an AI-powered CRM platform with integrated WhatsApp automation for enquiry, quotation, LPO, and payment workflow management.
- Worked mainly on frontend development to build responsive, user-friendly, and interactive application interfaces aligned with business requirements and workflow processes.
- Developed and enhanced application screens for real-time tracking, workflow management, and smooth user interaction across different system modules.
- Integrated frontend components with backend services and RESTful APIs to support seamless data flow, system communication, and application functionality.
- Assisted in implementing features related to document handling, WhatsApp communication, and automated workflow processes within the CRM platform.
- Collaborated with the development team in feature implementation, testing, debugging, issue resolution, and overall application enhancement activities.

CERTIFICATIONS

- Full Stack Java + React UI Certification program covering Java, React, Spring Boot, RESTful APIs, and database management.
- NPTEL Certification – Cloud Essentials (Top 5%), Ethical Hacking, Database Management System.
- Certification in Web Development – Issued by Exposys Datalabs and MainFlow Services during internship.
